PROLiNK® PCU6101 6-Port USB Charger is a compact, convenient centralized charging unit that allows you to charge up to 6 USB powered devices simultaneously. The unit is able to deliver a true total charging output of up to 10.0A which supports the charging of devices such as tablets, smartphones, digital cameras, handheld gaming consoles, power banks and other USB powered devices. **PROLiNK® PCU6101** also comes with reliable protection against over voltage, over current, short circuit, over temperature and overload.

In addition, it is designed with IntelliSense technology which detects and automatically distributes the right amount of charging current for your connected devices.

With its compact size and universal AC input voltage, the **PROLiNK® PCU6101** is the ideal travel companion which allows you the flexibility of charging your devices conveniently anywhere in the world.

USB2.0 6-Port

- Convenient centralized charging point for your USB devices.
- Charges up to 6 USB powered devices simultaneously.
- Delivers true total charging output of up to 10A.

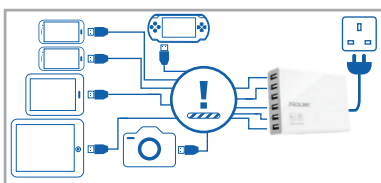

Ideal Travel Companion

- Compatible with worldwide AC input range 100 – 240V.
- Compact and stylish design, perfect for frequent travellers.

Advanced Protection

- Protection against over voltage, over current, short circuit, over temperature and overload.

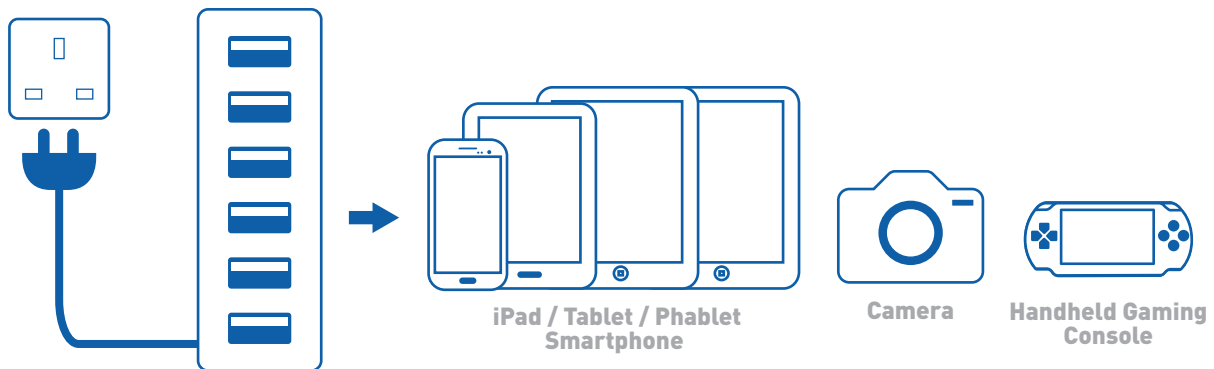

IntelliSense Technology

- Detects and automatically distributes the right amount of charging current for connected devices.

Specifications

Input	AC 100V-240V 50/60Hz 1500mA
Total Output	Each USB: 5V / 2.4A (Max) Total USB Output: 50W / 5V / 10A (Max)
Dimension	99.5*69*26mm
Weight	219g
