PUH501

2-in-1 Powered USB3.0 Hub and Quick Charger Combo

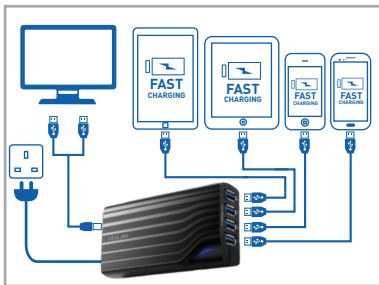

PROLiNK® PROBRICK 2-in-1 Powered USB3.0 Hub and Quick Charger Combo is a powerful, compact and lightweight device that is great for travelers and people constantly on the move. It supports high speed data transfer rates of up to 5Gbps and charging of up to 4 USB powered devices simultaneously.

The device is able to support up to 5V/12A (60W) of maximum output power when drawing power from both the AC power cord and USB V-Cable. This allows users to charge and sync up to 4 heavy-duty USB3.0 powered devices easily with just one adapter.

The device also comes with “IntelliSense” which allows the efficient matching of amperage requirements to ensure connected devices are allocated with the right amount of power for charging/data transfer. In addition, it is designed with reliable protection against over voltage, over current, short circuit and over temperature to prevent your connected devices from damaging.

PROBRICK is a convenient and centralized charging hub for users to charge their devices while transferring large data files in a fast and efficient way.

4 x USB3.0 Fast Charging Ports
